

Description: 8 $\mu$ F 250V GRIP WIRE PLASTIC SNAP IN

### Capacitor Electrical Data

|                                   |                               |
|-----------------------------------|-------------------------------|
| Capacitance ( $\mu$ F)            | 8                             |
| Tolerance ( $\pm\%$ )             | 10%                           |
| Voltage (V)                       | 250                           |
| Frequency (Hz)                    | 50/60                         |
| Discharge Resistance              | Incorporated                  |
| Diameter (mm)                     | 30                            |
| Length (mm)                       | 74                            |
| Case material                     | Plastic                       |
| Fixing                            | Snap In                       |
| Termination                       | Push wire                     |
| Temperature range ( $^{\circ}$ C) | -25 +85                       |
| Dielectric                        | Metallized Polypropylene Film |
| Protected                         | No                            |
| Standard                          | EN 61048/61049                |
